

DESHANI PALLIYAGURUGE

Full-Stack Developer — BSc. Information Technology, University of Moratuwa

+94 77 321 2979 . deshanipalliyaguruge2000@gmail.com . linkedin.com/deshani . github.com/deshani . Portfolio . Galle, Sri Lanka

PROFESSIONAL SUMMARY

Motivated Software Engineer with experience in full-stack development and NLP systems. Skilled in React, Next.js, ASP.NET Core, Spring Boot, SQL, and cloud deployment. Experienced in building scalable APIs, responsive interfaces, and database-driven applications using Agile practices, with a strong focus on delivering production-ready solutions.

WORK EXPERIENCE

Software Engineer Intern — App360 (PVT) Ltd

Feb 2025 – Sept 2025

- Developed and maintained scalable backend services using ASP.NET Core 8.0, ADO.NET, and Microsoft SQL Server, implementing efficient data access patterns and optimized database interactions.
- Built responsive and high-performance web interfaces using Next.js, Redux Toolkit, and Tailwind CSS, enhancing user experience and application usability.
- Deployed applications to Microsoft Azure, managing cloud resources and ensuring smooth production releases.
- Collaborated within an agile team using Bitbucket for version control, implementing branching strategies and participating in peer code reviews to maintain high code quality.
- Contributed to multiple production-level systems, including a POS platform and a Petrol Shed Management System.

EDUCATION

University of Moratuwa

2022 – 2026

BSc. (Hons) in Information Technology (Expected Jul 2026)

CGPA(Upto L3S2): **3.61 / 4.0**

Dean's List – Semester 3, 4

G/ Sanghamiththa B.V

2020

G.C.E Advanced Level — Physical Science Stream — A, A, B

TECHNICAL SKILLS

Languages: Java, C#, C, JavaScript, TypeScript

Frontend: ReactJS, Next.js, Redux Toolkit, Tailwind CSS, HTML, Framer Motion, MUI

Backend: Spring Boot, ASP.NET Core 8.0, ADO.NET

Databases: MySQL, MSSQL

Version Control: Git, Bitbucket

Cloud Platforms: Microsoft Azure

Testing: Cypress, Cucumber (BDD)

Others: Postman, Figma, Trello

PROJECTS

Trilingual PII Detection Redaction Middleware for LLM Security

Feb 2026 – Present

Python, PyTorch, HuggingFace (ByT5, XLM-Roberta) — Final Year Research

- Developed a middleware system to detect and redact PII in Sinhala, Code-Mixed(Sinhala + English) , and Singlish (Romanized Sinhala) LLM prompts.
- Implemented a morphology-aware module (ByT5) to handle Sinhala word variations and improve detection accuracy.
- Built multilingual PII detection models using XLM-Roberta for Sinhala, code-mixed, and Singlish text.
- Added a severity-level classifier to categorize sensitive information for context-aware redaction.
- Designed a pipeline to replace PII with realistic synthetic data, preserving prompt structure while ensuring privacy.

Workflow Automation & Rule Engine Platform

March 2026 - Present

ASP.NET Core and ADO.NET, MSSQL

- Built a configurable workflow automation platform supporting dynamic business rules and multi-step approval pipelines; backend-driven execution engine for enterprise decision workflows.
- Rule engine with dynamic condition evaluation using Strategy pattern; Chain of Responsibility for step-wise workflow execution and flexible routing logic.

- ADO.NET-powered data layer with optimized MSSQL queries, stored procedures, and transaction management.
- RESTful APIs for workflow configuration, request lifecycle management, and approval processing with role-based access control (JWT)

Bagify – E-commerce Web Application for Bags

March 2026 – Present

Next.js, Tailwind CSS, Supabase (PostgreSQL, Auth, Storage)

- Developed a full-stack e-commerce platform with product listing, search, filtering, shopping cart, and checkout features.
- Implemented authentication, authorization, and protected routes using Supabase Auth; managed relational database (PostgreSQL) for users, orders, and reviews.
- Built RESTful data interactions, CRUD operations, and state management for scalable application architecture.
- Designed responsive, mobile-first UI with performance optimization, reusable components, and modern UX practices.

[GitHub](#)

Mini E-commerce Microservices Platform

April 2026 – Present

Spring Boot, Spring Cloud, Kafka, Docker, PostgreSQL

- Designed a scalable microservices architecture with separate services for user, product, and order management.
- Implemented API Gateway and Eureka for service discovery and centralized routing.
- Developed asynchronous communication using Kafka for order and inventory workflows.
- Secured APIs with JWT-based authentication and role-based authorization.
- Containerized services using Docker and managed multi-service deployment.

[GitHub](#)

Construction Project Management System

Jun 2023 – Jun 2024

React, Tailwind CSS, Spring Boot, MySQL — Mentored by LSEG

- Designed and developed a web and mobile application for large-scale construction companies featuring role-based authentication, real-time notifications, project/task management, and inventory alerts.
- Implemented the storekeeper module with full equipment and materials management with real-time notification capabilities.

[GitHub](#)

Doodle Drawing Application

Aug 2024 – Oct 2024

Next.js, JavaScript, RoughJS

- A custom-built doodle drawing application.
- Implemented image upload, undo/redo functionality, and keyboard shortcuts.

ACHIEVEMENTS & ACTIVITIES

- **Tech Triathlon 2024** — Advanced to semifinal in Rootcode's Datathon Challenge (part of Designathon & Hackathon series)
- **Code Rush 2023** — Top 20 placement at INTECS Hackathon, University of Moratuwa
- **RealHack 4.0 2023** — Participated in inter-university team coding hackathon, University of Kelaniya
- **MoraXtreme 8.0** — Participated in IEEE Student Branch event, University of Moratuwa

LEADERSHIP & EXTRACURRICULARS

- **LEO Club**, University of Moratuwa — Finance Committee, Project Devthon 1.0
- **IEEE Club**, University of Moratuwa — Design Committee, Moraforesight 1.0 & Project VR-Cade
- **Rotaract Club**, University of Moratuwa — Tutor (Project Nana Aruna); Company Coordinator (Project Are You Ready 2023)
- **School Prefect** — G/ Upanada College
